Surgitrac instruments, single-use ophthalmic and refractive instruments. Single-use instruments look and feel like a reusable, but offer so much more:

**Safer:** sterile, ready-to-use, single-use instruments reduce the risk of cross infection.

**Cost effective:** reduce overheads with ready-to-use single-use instruments, with no repair, re-sterilisation or documentation costs.

**Performance:** precision made from medical grade Japanese Stainless Steel, single-use instruments have the same grip, weight and balance of reusable instruments.

**Convenience:** reduce preparation time in theatre, instruments come in convenient dispenser boxes or as complete procedure packs or sets.

About Surgitrac

We are Surgitrac Instruments a leading manufacturer of surgical instruments, sets and procedure packs for use in Ophthalmology. Established in Hong Kong, with manufacturing facilities in China, Surgitrac single-use instruments are CE certified and comply with international standards.

Surgitrac single-use instruments have an identical feel, quality and balance as reusable instruments, but without the risks and costs associated with re-sterilisation.

Our single-use instruments, sets and procedure packs are used globally in a range of ophthalmic and refractive procedures.
**Adsons Dissecting Forceps SC59**

1 into 2 teeth. Instrument length 125 mm.

**Bishops Forceps SC56**

Instrument length 125 mm.

**Bonn Forceps SC38**

**Capsulorhexis Forceps (short handle) SC30**

45° angled straight shafts. Tip to angled length 14 mm.

**Capsulorhexis Forceps Curved SC32**

45° angled straight shafts. Tip to angled length 14 mm. Instrument length 85 mm.
Capsulorhexis Forceps Curved Cross Action SC33

45° angled gently curved shafts. Tip to angled length 12 mm. Instrument length 106 mm.

Capsulorhexis Forceps Round Bodied SC34

45° angled straight shafts. Tip to angled length 14 mm.

Capsulorhexis Forceps Straight SC31

45° angled straight shafts. Tip to angled length 14 mm.

Colibri Style Toothed Forceps SC22

1 into 2 teeth, 0.12 mm tying platform, 105 mm length. Instrument length 105 mm.

Colibri Tying Forceps (short handle) SC20

1 into 2 teeth, 0.12 mm with tying platforms, 85 mm length. Instrument length 11 cm.
Epilation - Cilia Forceps SC58

Instrument length 85 mm.

Hoskins Forceps SC55

0.25 mm notched with tying platform.

Jewellers Forceps SC60

Straight shafts.
Instrument length 85 mm.

Kelmans Forceps SC73

Angled shafts with tying platforms.
Instrument length 11 cm.

Lens Folder Forceps SC51

Folding 5-6 mm sized optics of Intra-ocular lenses (IOL).
Paddle style jaws.
Lens Implantation Forceps SC52

Locking Lens Introducer SC53

Standard cross action with lock.

McPherson Tying Forceps SC72

45° angled shafts. 4.5 mm tying platforms.

Moorfields Forceps SA12

Straight shafts 4.5 mm tying platform, 85 mm length. Instrument length 10 cm.

Mosquito Forceps SG02

General holding forceps. Instrument length 85 mm.
Mosquito Forceps Curved **SG22**

Instrument length 125 mm.

Notched Forceps Curved **SC50**

Notch 0.25 mm with tying platform.

Notched Forceps Straight **SC49**

Notch 0.25 mm with tying platform.
Instrument length 115 mm.

Rampleys sponge holding Forceps (long) **RMPL**

Instrument length 185 mm.

Rampleys sponge holding Forceps (short) **RMPS**

Instrument length 115 mm.
St Martins Forceps SC54

1 into 2 teeth. 5 mm tying platform. Instrument length 14 cm.

Straight Toothed Forceps SC21

1 into 2 teeth. 5 mm tying platform. Instrument length 85 mm.

Straight Tying Forceps (short handle) SC19

Instrument length 10 cm.

Swan Neck Forceps (smooth) SC35

Instrument length 85 mm.

Tying Forceps Straight SC71

4.5 mm tying platforms. Straight shafts.

**Utrata Style Forceps (toothed) SC36**

Instrument length 105 mm.
**General Scissors Sharp Blunt End SG06**
Instrument length 90 mm.

**General Scissors Sharp Blunt End (long) SG07**
Instrument length 90 mm.

**General Scissors Sharp Pointed End SG01**
Instrument length 95 mm.

**Ong Capsule Scissors SC80**
Sharp pointed tips, angled blade.

**Stallard Corneal Scissors SA13**
Spring handled scissor.
Instrument length 125 mm.
Strabismus Scissors SG14

Instrument length 13 cm.

Vannas Scissors SC81

Sprint handled straight scissors.

Wescott Scissors SA11

Sprint handled curved scissor

Brand New Every Time
Kratz Barraquer Wire Speculum **SC11**

Open blades 13.5 mm.
Instrument length 52 mm.

Kratz Speculum **SC13**

Closed Loop.

Kratz Type Speculum Paediatric **SC10**

Closed wire 10 mm blades.

Pierce Type Adjustable Speculum **SC16**

Slide adjustable.

Sprung Speculum Neonate **SC15**

4 mm blades.
Temporarl Speculum SC12

15 mm blades.

Sprung Speculum Paediatric SC14

6 mm blades.

Chopper/Dialer SC39

Claw Phaco Chopper SC42
Curved chopper with two faceted chopping surfaces.

Drysdale Nucleus Spatula SC47
Paddle shaped tip.

Green Chopper SC45
Angled nucleus chopper.

Koch Type Chopper SC44
Finger type nucleus chopper.
**Mushroom Nucleus Manipulator SC48**

For iris retraction.

**Phaco Chopper SC43**

Ambidextrous nucleus chopper.

**Y Nucleus Rotator SC41**

Y shaped forked tip, blunt end.

---

**Brand New Every Time**
Jameson Strabismus Hook **SG10**

5 mm hook.

Jameson Strabismus Hook (extended) **SG11**

8 mm hook.

**Kuglen Hook** **SG15**

Iris hook and lens manipulator.

**Sinskey Hook also known as Lens Dialer** **SC46**

For manipulating the Intra-ocular lens.
Curette double ended CR05

Medium and large.
Instrument length 105 mm and 2 mm ends.

Curette Large CR03

2 mm diameter.

Curette Medium CR02

1.5 mm diameter.

Curette Small CR01

1 mm diameter.
**Chalazion Clamp Small CS01**

11 mm diameter, round plate.

**Chalazion Clamp Large CS02**

23 x 16 mm, oval plate.

**Braunstein Caliper Fixed SG04**

Double ended 3.5 and 4 mm.

**Castroviejo Caliper Adjustable SG05**

Measures from 0.0 mm to 20 mm in 0.5 mm increments.
**Double Ended Punctal Dilator PD03**

Double - Ended.

**Punctual Dilator Blunt PD02**

Blunt end.

**Punctual Dilator Sharp PD01**

Sharp end.

**Trabeculectomy Punch SG03**

Bullet shaped tip for easy insertion into the sclero-corneal tunnel 3 mm punch size.

**Trabeculectomy Punch SG03A**

Jacobs Style.
Desmarres Lid Retractor SG20

Eye Lid Plate SG17

Jaffe Type Lid Retractors Bottom SG09
Bottom eyelid with two 9 mm blades.

Jaffe Type Lid Retractors Top SG08
Top eyelid with two 14 mm blades.
Thornton Fixation Ring Fine (small) SG12

Swivel head 13 mm with 11 mm cut out.

Thornton Fixation Ring Fine (standard) SG13

Swivel head 16 mm with 14 mm cut out.

Co-axial I/A Cannula (straight shaft, 45° tip) CA03

Co-axial I/A Cannula (straight shaft, 90° tip) CA04

Brand New Every Time
**Adjustable Speculum SR11**

Screw adjustable (no blades).

**Bladed Adjustable Speculum SR10**

Screw adjustable with solid blades.

**Epi - Peeler SR51**

**Epi-Peeler Hoe Type SR60**

D Shaped.

**Epi-Peeler Hoe Type SR61**

Square Shaped.
Flap Elevator SR31
Blunt tipped. 1 mm spatula.

Flap Lifter Universal SR32
Bevelled tip.

Flap Separator (Intra Lasik) SR34
Round, sharp tipped separator.

Lasek Alcohol Well SR41
Liquid holding well. Well 9 mm diameter.

Lasek Alcohol Well SR42
Liquid holding well. Well 8 mm diameter.
